Receipt

<u>ID</u>	<u>Booking_ID</u>	Receipt_Num	Amount	Payment_Date	Payment_Method
-----------	-------------------	-------------	--------	--------------	----------------

Has

<u>TP_ID</u>	<u>GT_ID</u>
--------------	--------------

STEP 6: MAPPING OF MULTIVALUED ATTRIBUTES

We have no multivalued attributes, none of our entities will need a multivalued attribute, since the attributes that we currently have will be efficient enough for the purpose of this practical.

STEP 7: MAPPING OF N-NARY RELATIONSHIPS

We have no n-ary relationships, because it does not make sense to share any relationships between more than two entities that we have. Thus this step is skipped.
